Outline

This is the title of my slide show

This is a slide

Here is some important text.

Another side with some math

$$\Sigma_{i=1}^{n} i$$

Let's look at some code

What is the correlation between height and weight in women?
We can use the built in dataset women in R.

```
print(with(women,cor(height,weight)))
```

```
[1] 0.9954948
```

# Including a plot

```
print(with(women,plot(height,weight)))
```

Figure: Scatterplot of Women's Heights and Weights
